We will “listen with the ears of our heart”, to the voices inside and outside our lives that are begging for honest expression. Provocative readings, shared silence, the company of others, and our own courage will guide us in discovering new insights into our lives and the life of the world. Writers of all kinds are welcome, as well as those who don't consider themselves writers!

### **Presenter/Author Biography:**

Mara Faulkner, OSB, a retired literature professor primarily at the College of St. Benedict/St. John's University and writer for over forty-five years is a longtime member of St. Benedict's Monastery.
